DESCRIPTION

A passionate and determined recent graduate in Information Engineering, committed to continuous learning and eager to apply my knowledge to real-world challenges. I am highly interested in the field of Software Engineering, such as designing applications and solving problems that arise within software systems. A curious thinker who's ambitious, loves learning, doesn't give up easily, and enjoys solving problems. I thrive in both team-oriented environments, where collaboration fosters innovation, and when working independently to tackle complex problems.

WORK EXPERIENCES

KHDTK Wanagama, UGM

Yogyakarta, ID

Full Stack Flutter Developer

December 2022 – February 2023

- Translate the client need into software requirements to ensure that the development process aligns with the customer's expectations.
- Successfully developed a comprehensive Flutter application known as the Wanagama App, specifically designed for the purpose of online booking.
- Successfully created documentation for the Wanagama App, including the creation of a System Requirements Specification (SRS) to facilitate further development needs.
- Effectively showcased the completed application to the Wanagama Directorate during a comprehensive final presentation, highlighting its features, functionality, and potential impact.

Universitas Gadjah Mada

Yogyakarta, ID

Bachelor in Information Engineering. GPA 3.36 / 4.00

2019 – 2023

Relevant Coursework:

Software Engineering, Data Engineering, Software Testing, Web-App Development, Mobile Application Development

LEADERSHIP & ACTIVITIES

Technocorner 2021 Technological War

Staff of Photo and Video

Mar 2021 – June 2021

- Creating an infographic video for the opening of the Technocorner UGM 2021 event using After Effects, combining dynamic visual elements and informative graphics to engage and captivate the audience while highlighting key event details.
- Managing Zoom and documenting the Technocorner UGM 2021 event, attended by over 100+ participants, to ensure smooth virtual proceedings, facilitate participant engagement, and capture valuable event highlights and interactions for future reference

Permatagama UGM

Head of DDD division

December 2021 – January 2022

- Creating and evolving the main design for the UGM Expo Tasikmalaya event, incorporating visually appealing elements that represent the event's theme, conveying a sense of excitement, and effectively communicating key information to attendees. This design will serve as the foundation for all event-related materials and visuals.
- Delegating tasks to staff members, assigning responsibilities based on their strengths and expertise, and establishing clear communication channels to ensure the successful completion of projects while fostering team growth and development.
- Documenting the UGM Expo Tasikmalaya event held at Asia Plaza Mall Tasikmalaya, capturing event highlights, participant interactions, and important moments to create a comprehensive record that showcases the success, impact, and unique aspects of the event. This documentation will serve as a valuable reference for future planning and promotional efforts.

Technocorner 2020 Technological War

Staff of Documentation

March 2020 – June 2020

- Successfully documented the Technocorner UGM event at Sleman City Hall with over 100+ participants, capturing key moments and interactions, and ensuring a seamless experience for all attendees
- Selecting and editing photos for social media purposes, ensuring high-quality visuals that resonate with the target audience and effectively convey the intended message.
